

## Sputtering Target Used for Different Applications

|                    |   |
|--------------------|---|
| Decoration         | Chromium (Cr) target, titanium (Ti) target, zirconium (Zr) target, nickel (Ni) target, tungsten (W)target, titanium aluminum (TiAl) target, and etc.  |
| Tooling            | Titanium aluminum (TiAl) target, chromium aluminum (CrAl) target, chromium (Cr) target, titanium (Ti) target, and etc.  |
| Glass              | Silver (Ag) target,chromium (Cr) target, titanium (Ti) target, nickel-chromium (NiCr) target, zinc-tin (ZnSn) target, silicon-aluminum ( SiAl) target, titanium oxide (TixOy) target, and etc.    |
| Electronic devices | NiCr target, nickel-chromium (NiCrSi) target, chromium silicon (CrSi) target, tantalum (Ta) target, nickel-chromium-aluminum (NiCrAl) target, and so on.  |
| Semiconductors     | Tungsten (W) target, tungsten-titanium (WTi) target, titanium(Ti) target, tantalum(Ta) target, aluminum(Al) target, copper (Cu) target, and etc.  |
| Solar              | Zinc oxide aluminum (AZO) target, zinc oxide (ZnO) target, zinc aluminum (ZnAl) target, molybdenum (Mo) target, cadmium sulfide (CdS) target, copper indium gallium selenide ( CuInGaSe) and etc. |
